

FY12/22 1Q Financial Results Briefing Material

RS Technologies Co., Ltd.

May 13, 2022

Prime Market 3 4 4 5

Contents

Company Overview

P.3

- Company overview
- History
- Strengthening of Corporate Governance
- Update on GRITEK'S IPO process on STAR Market
- Manufacturing Facilities
- RS Technologies Today
- Share of Total Shipments from the Silicon Wafer Reclaim Business

FY 12/22 1st Quarter Results Summary

P.17

- Summary of Financial Result (Cumulative)
- Financial Result by Segment and Company
- Financial Results By Segment
- Financial Results By Business
- Balance Sheet

Medium-term Investment Plan

P.23

- Medium-term management plan
- Outlook of FY22
- Capital Investment Plan
- Investment Plan in Progress for China (Schedule)
- 12 Inch Prime Wafer Market in China (Strategy)
- New Demand in Reclaimed Wafer Business
- Reclaimed Wafer Demand Outlook
- Third Engine of Growth: DG Tech's Growth Strategy
- RS Technologies' Aims

Appendix 1 GRITEK's Preparation for IPO

P.67

- Starting IPO process (disclosed on Sep.2020)
- Update on IPO process (disclosed on Nov.2020)
- Update on IPO process (disclosed on May.2021)

Appendix 2

P.40

- Strengths of CEO Nagayoshi Ho
- Reclaimed Wafer Business (1) (2)
- Foray into Prime Wafer Business
- About RST's JV partner in China
- Alliance with Shandong, Background and Status
- Business Scheme in Chinese market
- Business Scheme of 12inch Prime Wafer Business
- Performance BS Performance by Segment

1. Company Overview

Company Overview

- Holding the top market share (33%*1) worldwide in semiconductor wafer reclamation market
- Entering the prime wafer business through a joint venture with a Chinese state-owned company
- Expanding into semiconductor-related business fields expected to produce synergy through M&A

| Company name | RS Technologies Co., Ltd. | | | | | | |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|--|--|
| Date of establishment | December 10, 2010 | | | | | | |
| Corporate principles | "Respect the global environment, earn the trust of people, and constantly strive to create." | | | | | | |
| Businesses | Silicon Wafer Reclaim, Silicon Wafer Oxide Film Coating, Silicon Wafer Sales. Solar Power Station. Purchase and sale of used semiconductor equipment. Sale of chemical materials and semiconductor parts. Technical assistance and education service on semiconductor wafer manufacturing process. | | | | | | |
| Head office | NT Bldg. 12F, 1-47-1, Ohi, Shinagawa-ku, Tokyo 140-0014 JAPAN | | | | | | |
| Sanbongi Plant | 26-2 Yamazaki, Sanbongi Otonashi, Osaki, Miyagi 989-6313 JAPAN | | | | | | |
| Capital | JPY 5,438 million (As of March 2022) | | | | | | |
| President and CEO | Nagayoshi Ho | | | | | | |
| | RSTEC Semiconductor Taiwan Co.,Ltd. Founded in February 2014, Capital: NT \$300 million, Stake: 100% | | | | | | |
| | Beijing GRINM RS Semiconductor Materials Co., Ltd. (BGRS) Registered Capital US \$138 million, Stake 45% *2 | | | | | | |
| Consolidated | GRINM Semiconductor Materials Col, Ltd. (GRITEK) Registered capital: RMB 800 million, Stake 47.17% *2 | | | | | | |
| subsidiaries | Union Electronics Solutions Co., Ltd. Capital ¥27 million, Stake 100% | | | | | | |
| | Shandong GRINM Semiconductor Materials Co., Ltd. (Shandong GRITEK, Dezhou, Shandong) Registered Capital RMB 1,500 million, Stake 37.74% *2 | | | | | | |
| | DG Technologies Co., Ltd. Capital ¥100 million, Stake 100% | | | | | | |

^{*1.} Estimated by us based on SEMI data.

^{*2 .} The consolidated investment scheme in China is as follows. BGRS is the parent company, GRITEK is its subsidiary, and Shangdong GRITEK is GRITEK's subsidiary, and so the investments overlap. Please refer to p.47 "China business investment scheme" for details.

History

| Dec. 2010 | Established RS Technologies with reclaimed wafers as its primary business |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Jan. 2011 | Operations begun at the Sanbongi Factory |
| Nov. 2011 | Sanbongi Factory acquires ISO9001:2008 (quality management system) certification from UKAS |
| Oct. 2013 | Solar power business begun at the Sanbongi Factory |
| Feb. 2014 | RSTEC Semiconductor Taiwan established as a subsidiary in Taiwan (currently a consolidated subsidiary) |
| Mar. 2015 | RST listed on the Tokyo Stock Exchange Mothers Market |
| Jun. 2015 | Fab8 completed at Sanbongi Factory, with cutting-edge equipment allowing reclamation of 18-inch wafers |
| Dec. 2015 | Tainan Factory completed for RSTEC Semiconductor Taiwan (currently a consolidated subsidiary) |
| Sep. 2016 | RST moved to the Tokyo Stock Exchange First Section |
| Dec. 2017 | Joint venture agreement concluded with General Research Institute for Nonferrous Metals (GRINM) and Fujian Kuramoto |
| Jan. 2018 | Beijing GRINM RS Semiconductor Materials Co., Ltd. (BGRS) established; Chinese prime wafer manufacturer Youyan Semiconductor Material Company Limited (GRITEK) made a consolidated subsidiary |
| May 2018 | Acquired 100% of shares at Union Electronics Solutions Co., Ltd. (distributor for Hitachi Power Semiconductor Device, Ltd.) |
| Aug. 2018 | Established Shandong GRINM Semiconductor Materials Co., Ltd. (Shangdong GRITEK), a consolidated subsidiary of GRITEK |
| Jan. 2019 | Acquired 100% of shares of DG Technologies Co., Ltd. |
| Dec. 2019 | A four-party joint venture agreement concluded with GRINM, Dezhou Huida Semiconductor Equity Investment Fund Partnership, and the City of Dezhou in Shandong |
| Feb. 2020 | Established Shanghai Union Semiconductor Co., Ltd (Shanghai Union) |
| Mar. 2020 | Established Shandong GRINM RS Semiconductor Materials Co., Ltd. (SGRS) and Beijing Gritek & IVT Technology Co., Ltd. (Beijing IVT) |
| Oct. 2020 | Completion of a new factory in Shandong GRITEK, a production base for prime wafers in China |
| May. 2021 | Launched Kurihara Plant (Kurihara City, Miyagi Prefecture) as the second production base of DG |
| Jun. 2021 | Changed the organizational structure to a joint-stock company in preparation for listing on GRITEK |
| Mar. 2022 | Transitioned from a company with audit & supervisory board structure to a company with audit and supervisory committee structure. |
| Apr. 2022 | Establishment of the Nomination and Compensation Committee |
| - | |

Strengthening of Corporate Governance

- Transitioned to a company with audit and supervisory committee structure approved by general meeting of shareholders held on March 30,2022
- Established the Nomination and Remuneration Committee approved by Board of Directors on April 14, 2022

Transitioned to audit and supervisory committee

Changes occurred by the transition of committee structures

Aim

- **♦** Corporate Governance
- •Strengthening of Board of Directors' supervisory and monitoring functions
- **\rightarrow** Enhancement of Corporate Value
- •Separation of business operation and Supervision, Speeding up decision making process

Transitioned Period

•Approved by general meeting of shareholders on March 30, 2022

Nomination and Remuneration Committee

- \Diamond Aim
- Improvement of Governance function and monitoring function
- **♦**Established
- ·April 14th, 2022 by Board of Directors

Strengthening of System of Operating Officer

- **⊘Aim**
- Strengthening of Business execution
- ·Speeding up decision making
- **♦** Execution Date
- ·March 30,2022

Management and Operation System after transitioned to audit and supervisory committee structure

Directors

(non-member of Audit and Supervisory Committee)

CEO Na Director of Manufacturing Dept Sa

Nagayoshi Ho Satoru Endo

Directors

(Member of Audit and Supervisory Committee)

Director Hiroyuki Kanamori* (New)
Director Ryosuke Kuwada* (New)
Director Natsuko Shimizu* (New)

Nomination and Compensation Committee

Chairman Hiroyul
Committee Member Ryosuk
Committee Member Natsuk
Committee Member Nagayo

Hiroyuki Kanamori (New) Ryosuke Kuwada (New) Natsuko Shimizu (New) Nagayoshi Ho (New) Chief Executive Officer
Senior Executive Officer
Chen Keirin (New)

^{*}Independent Outside Director

^{*}New = newly appointed

Operating Officers

^{*}New = newly appointed

^{*}Prom = promoted

Update on GRITEK's IPO process (disclosed on December, 2021)

 On December 28, 2021, Shanghai Stock Exchange Accepted Listing Application and Began Listing Examination

IPO Schedule

Registration for Listing Examination (July 13th, 2021)

Registration for Listing Examination to China Securities Regulatory Commission of Beijing Administration Acceptance of Listing Application (December 28,2021)

Acceptance of Listing
Application at Shanghai Stock
Exchange and Starting Listing
Examination

IPO on STAR Market

Listing on STAR Market after approved by China Securities Regulatory Commission

Sanbongi Factory (RS Technologies, Reclaimed Wafer)

■Jan.2011: Began operation

■Jun.2015: Expanded No.8 factory for manufacturing 18inch wafer

| Company | RS Technologies Co.,Ltd | | | | | | |
|--------------|-------------------------------------------|--|--|--|--|--|--|
| Est. | December 2010 | | | | | | |
| Product | 5,6,8,12 inch reclaimed | | | | | | |
| Capacity | 8inch : 150k/month 12inch : 300k/month | | | | | | |
| Location | Osaki city, Miyagi | | | | | | |
| Certificated | ISO9001、ISO14001 | | | | | | |

Tainan Factory (RSTW, Reclaimed Wafer)

■Dec.2015: RSTEC Semiconductor Taiwan Co.,Ltd(RSTW) Tainan Factory established

| Company | RSTEC Semiconductor Taiwan Co.,Ltd | | | | |
|-----------|---------------------------------------|--|--|--|--|
| Est. | December 2015 | | | | |
| Product | 12inch Reclaimed | | | | |
| Capacity | 12inch: 200k/month | | | | |
| Location | Tainan city, Taiwan | | | | |
| Certified | ISO9001、ISO14001 | | | | |

Dezhou Factory (Shandong GRITEK, 8 inch prime wafer)

■Agt.2018: Shandong GRITEK was established

■Oct.2020: Dezhou Factory completed and began to produce prime wafer

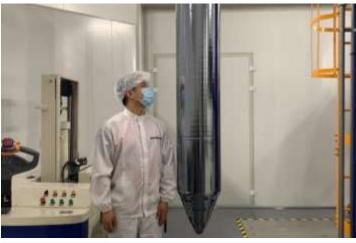

| Company | Shandong GRITEK Co.,Ltd | | | | | | |
|--------------|------------------------------------------------------------------|--|--|--|--|--|--|
| Est. | October 2020 | | | | | | |
| Product | 5,6,8 inch prime wafer | | | | | | |
| Capacity | 5 inch : 50k/month 6 inch : 150k/month 8 inch : 130k/month | | | | | | |
| Location | Dezhou City, Shandong Province | | | | | | |
| Certificated | ISO9001、ISO14001 | | | | | | |

Guotai Factory R&D Center (SGRS, 12inch prime wafer)

- ■Mar. 2020: GRINM RS Semiconductor Materials Co., Ltd (SGRS) established
- ■2021: R&D line for 12 inch prime wafer (10k per month production) established

| Company | GRINM RS Semiconductor Materials Co., Ltd | | | | |
|----------|-----------------------------------------------------------------------|--|--|--|--|
| Est. | March 2020 | | | | |
| Product | 112inch prime wafer212inch Reclaimed wafer | | | | |
| Capacity | 110k/month(R&D line) 250k/month(from 2022) | | | | |
| Location | **Dezhou City, Shandong Province | | | | |

The photo above is Guotai factory's R&D Center located in Beijing.

Kamisu Factory (DG Technologies, Semiconductor-related materials)

- ■In January 2019, DG Technologies Co., Ltd. became a consolidated subsidiary.
- ■In order to meet the growing demand, DG has been increasing production through capital investment and productivity improvement.

| Company | DG Technologies Co., Ltd | | | |
|--------------|-----------------------------------------------------------------|--|--|--|
| Est. | October 1981 | | | |
| Product | Quartz and Silicon Consumable Parts For Etching Equipment | | | |
| Location | Kamisu City, Ibaraki Prefecture | | | |
| Certificated | ISO9001 | | | |

Kurihara Factory (DG Technologies, Semiconductor-related materials)

- ■In May 2021, the Kurihara Factory was set up in Miyagi Prefecture.
- ■Both Kamisu and Kurihara Factories manufacture Silicon and Quartz parts

Plate

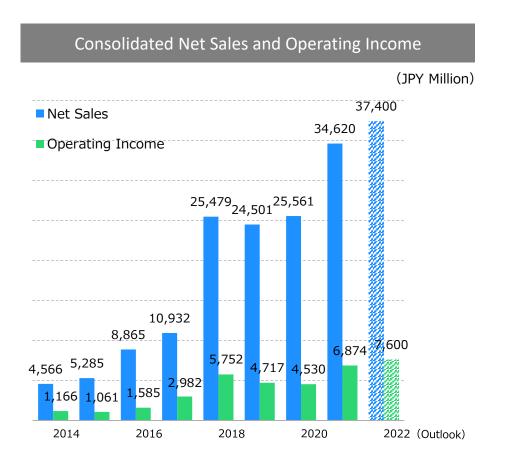

Quartz Ring

| Company | DG Technologies Co., Ltd |
|----------|-----------------------------------------------------------------|
| Est. | May 2021 |
| Product | Quartz and Silicon Consumable Parts For Etching Equipment |
| Location | Kurihara City, Miyagi Prefecture |
| Area | 5,000㎡ |

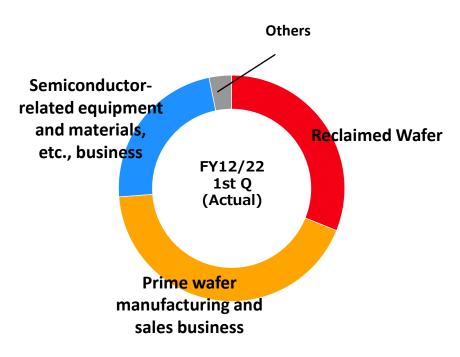

RS Technologies Today

- A comprehensive wafer manufacturer in the Silicon Reclaimed Wafer and Prime Wafer business.
- Business has expanded into semiconductor-related equipment and materials, etc., business and solar business.
- The Company boasts the world's top share in Reclaimed Wafer business and is expanding its Prime Wafer business in China for its domestic use.

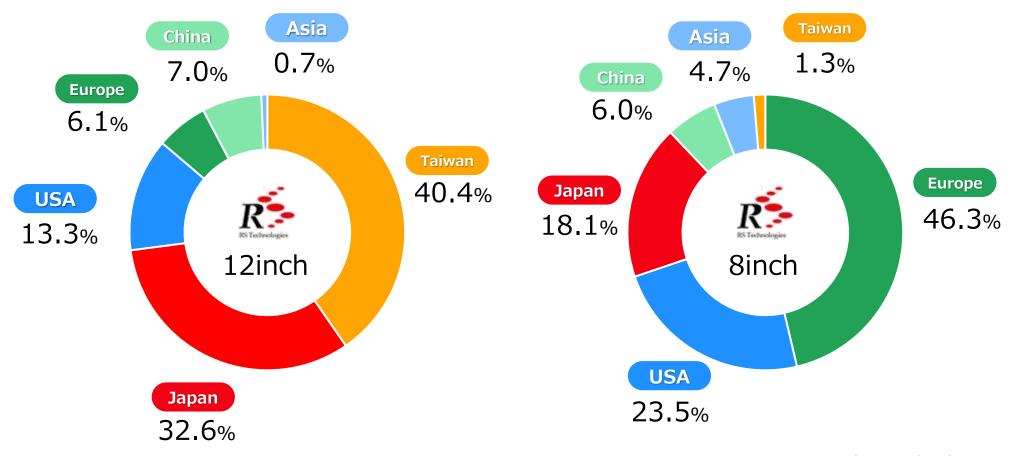

Revenues by Segment

Share of Total Shipments from the Silicon Wafer Reclaim Business

- The customers are major global semiconductor manufacturers, mainly in Japan, Taiwan, USA, and Europe.
- In 2022, production factory for reclaimed wafers increased in China along with one in Japan and Taiwan

(FY12/21)

2. FY 12/2022 1Q Results Summary

FY12/2022 1Q Financial Result

- Net Sales, Operating Income Increased Compared to YoY.
- Net income attributable to owners of the parent Increased.

| (JPY Million) | FY 12/2021 1Q | FY 12/2022 1Q | YoY | Compared to YoY | Progress rate to reach FY 12/ 2022 2Q Forecast | FY 12/2022 2Q Outlook |
|----------------------------------------------------------|------------------|------------------|--------|--------------------|---------------------------------------------------------|--------------------------|
| Net Sales | 6,684 | 11,067 | 4,383 | 65.6% | 61.5% | 18,000 |
| Operating Income | 755 | 2,617 | 1,862 | 246.6% | 74.8% | 3,500 |
| Operating Margin | 11.3% | 23.6% | 12.3pt | | | 19.4% |
| Ordinary Income | 1,191 | 2,858 | 1,667 | 139.9% | 71.5% | 4,000 |
| Ordinary Margin | 17.8% | 25.8% | 8.0pt | | | 22.2% |
| Net income attributable to owners of the parent | ▲ 540 | 1,228 | 1,768 | _ | 53.4% | 2,300 |
| EPS (JPY) | ▲ 41.83 | 95.03 | 136.86 | _ | | 177.91 |

Financial Results By Segment and Company (Cumulative)

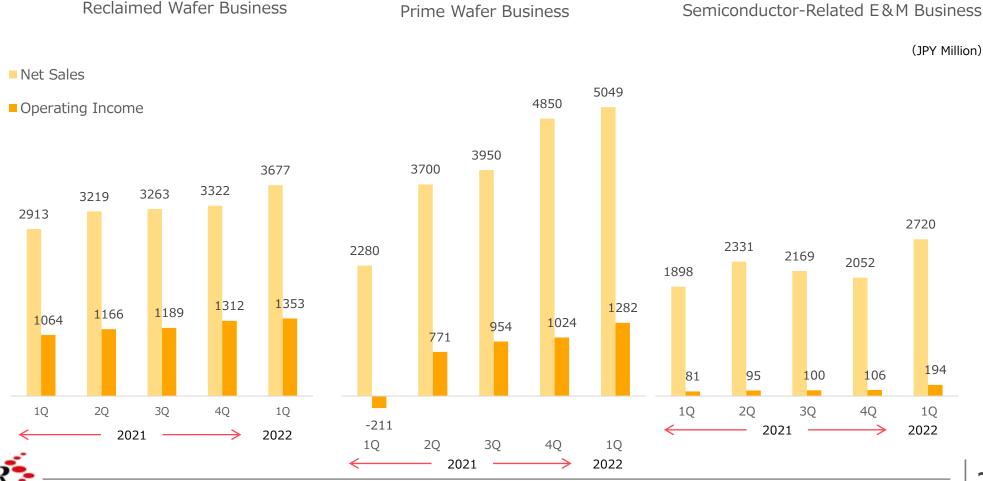

- Reclaimed Wafer Business increased net sales and operating income YoY contributed mainly by customers' strong demand
- Prime Wafer Business increased net sales and operating income contributed mainly by strong customer demand
- Semiconductor-related Equipment, Materials Business also showed steady sales and profit increase by strong customer demand

| | Reclaimed wafer business | | Manufacturing and | | Semiconductor- related Equipment, Materials, etc., Business | | Others, Adjustments | | Consolidated Total | |

FY 12/2022 1Q Result Chart by Segment

- Reclaimed Wafer Business increased net sales and operating income YoY contributed mainly by customers' strong demand
- Prime Wafer Business increased net sales and operating income contributed mainly by strong customer demand and stable new factory's operations
- Semiconductor-related Equipment, Materials Business also showed steady sales and profit increase by strengthening sales force.

FY 12/2022 1Q Result Chart by Company

- Taiwan Subsidiary showed steady growth by strong customers' demand
- ■RS Technologies showed steady growth in profit
- Chinese subsidiaries showed steady growth by steady production and strong customer demand

Balance Sheet

■ Due to increase in profit, net asset increased to about JPY 59.9 Billion (+JPY 4.9 billion)

Consolidated Balance Sheet

| (JPY Million) | FY 12/2021 | FY 12/2022 1Q | | | | | | |
|----------------------------------|-------------|---------------|--|--|--|--|--|--|

| | Liabilities | , | | | | | | |
| Current liabilities | 14,218 | 14,055 | | | | | | |
| Notes and account payable | 4,317 | 3,699 | | | | | | |
| Short term debts | 3,020 | 3,862 | | | | | | |
| Non-current liabilities | 9,827 | 9,973 | | | | | | |
| Long term debts | 5,097 | 4,849 | | | | | | |
| Total Liabilities | 24,046 | 24,028 | | | | | | |
| | Net Asset | | | | | | | |
| Net Asset | 54,951 | 59,893 | | | | | | |
| Total Liabilities and Net Assets | 78,997 | 83,921 | | | | | | |

3. Medium-term Management Plan Outlook

Summary of Medium-Term Management Plan (4 years)

- Reclaimed Wafer Business: Steady growth by executing further investment to meet market demand
- Prime Wafer Business: Securing stable supply of 8 inch prime wafer
- Semiconductor-related E&M Business: Entering new market segment and Exercising group synergies

| (Million yen) | 12/2020 | 12/2022 | 12/2023 | 12/2024 | 12/2025 |
|----------------------------------------------------------|---------|----------|----------|----------|----------|
| (Willion yen) | Actual | Forecast | Forecast | Forecast | Forecast |
| Net sales | 34,620 | 37,400 | 39,700 | 42,400 | 45,000 |
| Operating income | 6,874 | 7,600 | 8,300 | 9,300 | 10,000 |
| Operating Margin | 19.8% | 20.3% | 20.9% | 21.9% | 22.2% |
| Ordinary income | 8,832 | 8,900 | 9,700 | 10,800 | 11,600 |
| Ordinary Margin | 25.5% | 23.8% | 24.4% | 25.5% | 25.7% |
| Net income attributable to owners of the parent | 3,303 | 4,800 | 5,600 | 6,300 | 6,800 |
| EPS | 255.56 | 371.39 | 433.28 | 487.45 | 526.14 |

Outlook of FY 12/2022

- All segment is likely to show steady growth
- RS Technologies and RS Taiwan will increase sales and profit mainly from reclaimed wafer business
- Chinese Subsidiaries is likely to show sales and profit growth by executing steady production and capital investment

| | FY 12/2021 (Jan-Dec, 2020) | FY 12/2022 (Jan-Dec, 2022) | vs. Previous Year | |

Capital Investment Plan: Reclaimed Wafer Business

- Following growing demand of semiconductors in global scale, factory in Japan and Taiwan will increase production capacity and factory in China will execute stable mass production.
- Determined to increase investment amount to Taiwan in 2022 and 2024 and by 2024, production capacity will reach to 260K/m

JAPAN

Total investment: JPY 2.1 bil.

- Expand production capacity for 12inch reclaimed wafers and miniaturization
- ≥ 2022~2024 : JPY 2.1 bil (+40K)

| 12-inch reclaimed wafer production capacity | | | | | |
|---------------------------------------------|--|--|--|--|--|
| (per month) | | | | | |
| | | | | | |

| 280K | 300K | 310K | 320K |
|------|------|------|------|
| 2021 | 2022 | 2023 | 2024 |

| 2022 | 2023 | 2024 |
|---------|---------|---------|
| JPY 900 | JPY 500 | JPY 200 |
| million | million | million |

TAIWAN

Total investment: JPY 3.0 bil.

- Expand production capacity for 12inch reclaimed wafers and miniaturization
- 2022~2024 : JPY3.0 Bil.(+70K)

12-inch reclaimed wafer production capacity (per month)

| 2021 | 2022 | 2023 | 2024 |
|------|------|------|------|
| 180K | 200K | 230K | 260K |

Phase 1 investment

| 2022 | 2023 | 2024 |
|--------------------|--------------------|------|
| JPY 500 million | JPY 100 million | TBD |

Invested JPY 3 bil. in 2021

Capital Investment Plan: Prime Wafer Business

- 8 inch prime wafer: Targeting to produce 130k wafers per month
- ■12 inch prime wafer: Completed Product Development line with 10K capacity

China (8 inch)

Action to take:

- Quick startup of Shandong Factory
- Execution of stable mass production

8-inch prime wafer production capacity (per month)

2020 **2021 130k**

| FY2022 | FY2023 | FY2024 |
|--------|--------|--------|
| *1 | TBD | TBD |

China (12 inch)

Action to take:

R&D line investment: JPY 4 bil.

- R&D for 12-inch prime wafer mass production.
- Aim for mass production set-up for 300k wafers through a R&D line for 10k.

12-inch prime wafer production capacity (per month)

2020 → 2021 202X 0k 10k*2 → 300k

| FY2022 | FY2023 | FY2024 |
|--------|--------|--------|
| *3 | TBD | TBD |

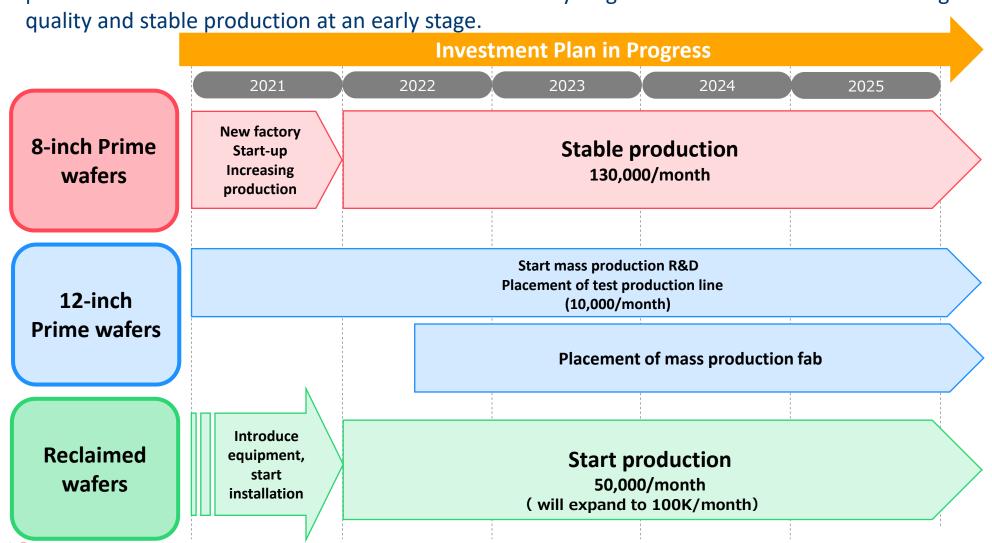

^{*2:} Development line for mass production R&D

^{*3:} completed investment for Development Line in 2021

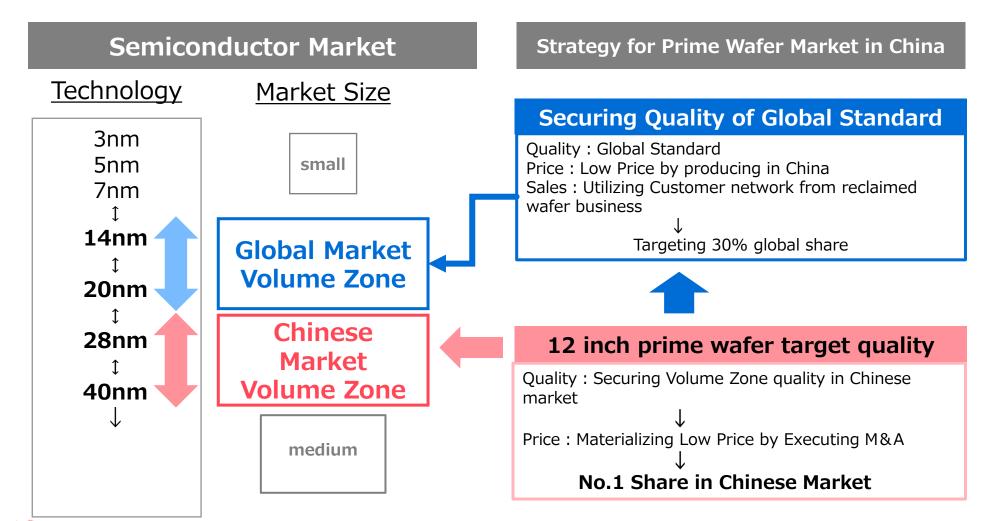

Investment Plan in Progress for China (Schedule)

■ Producing 130k wafers per month for 8 inch prime wafer. Conducted R&D with a 12 inch monthly production line of 10k wafers and launch of a wafer recycling business. The 12 inch aims for high quality and stable production at an early stage.

12 Inch Prime Wafer Market in China (Strategy)

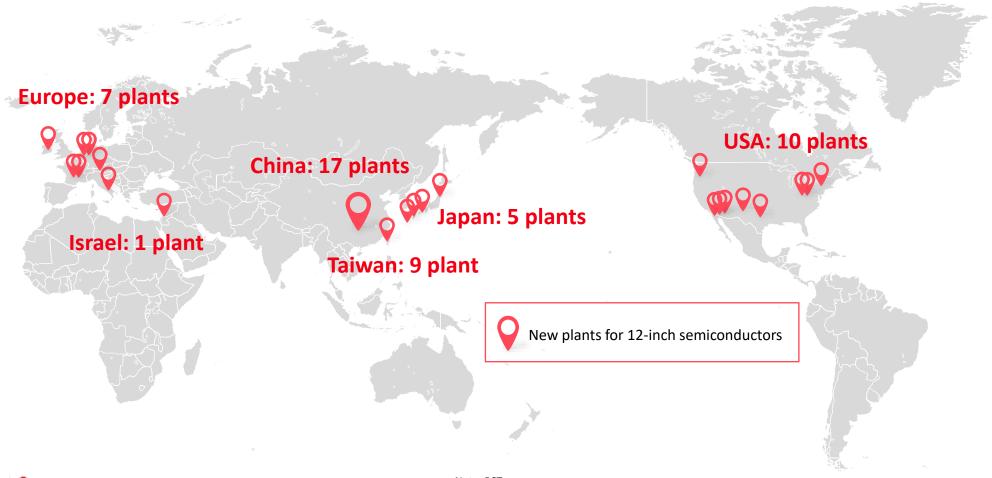

- Targeting No.1 Share in Chinese Market by securing volume zone quality in Chinese Market
- After achieving No.1 share in Chinese market, next step will be to be a prime wafer manufacturer who is able to provide products with global standard quality to global semiconductor manufacturers

New Demand in Reclaimed Wafer Business: Plans to construct new 12-inch semiconductor plants

- ■There are plans to construct new semiconductor plants to cope with the high demand for semiconductors for memory, CPU, computerization of automobiles, etc., in Europe, USA, Japan, etc.
- ■Meet new reclaimed wafer demand by capital investments in Japan, Taiwan, and China.

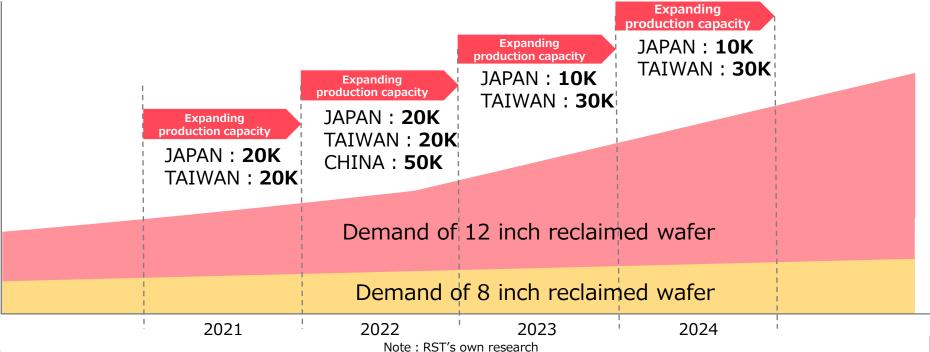

Reclaimed Wafer Demand Outlook

■Between 2022 and 2024, production capacity of 12 inch reclaimed wafers is expected to increase: Japan: +40,000, Taiwan: +80,000, China: +50,000

| Production Capacity | End of 2021 | End of 2022 | End of 2023 | End of 2024 |
|------------------------|-------------|-------------|-------------|-------------|
| JAPAN | 280K | 300K | 310K | 320K |
| TAIWAN | 180K | 200K | 230K | 260K |
| CHINA | 0 | 50K | 50K | 50K |
| TOTAL | 460K | 550K | 590K | 630K |

Third Engine of Growth: DG Tec's Growth Strategy (1/3)

- ■DG Technologies manufactures consumable parts for semiconductor equipment
- ■In January, 2019, DG Technologies became a consolidated subsidiary of RS Technologies

Company Profile

| Name | DG Technologies Co., Ltd |
|----------|----------------------------------------------|
| Est. | October 26, 1981 |
| Business | Consumable parts for semiconductor equipment |
| Address | 3-4, Sunayama, Kamisu-city, Ibaraki |
| Capital | JPY 100 Million |
| CEO | Nagayoshi Ho |

Product

Quartz and Silicon Consumable Parts For Etching Equipment

Silicon Plate

Quartz Ring

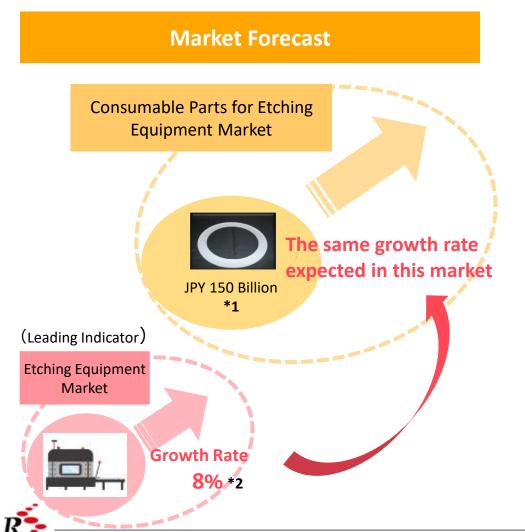

Main Customer

Semiconductor Manufacturers Semiconductor Equipment Manufacturers

Third Engine of Growth: DG Tec's Growth Strategy (2/3)

- Market for Quartz and Silicon Consumable Parts for Etching Equipment is expected to reach 150 billion yen and is expected to continue stable growth.
- ■By executing the Growth Strategy, DG Tec targets to become top provider in the market

Growth Strategy

- **♦** Strengthening Sales Activities
- ⇒Cross-selling DG Tec's parts to RST's existing customers
- **◆**Reinforcement of Production Capacity
- ⇒Execution of CAPEX helps DG Tec meet customers' required quantities and delivery time of products.
- **◆Improvement of Production Efficiency**
- ⇒Optimization of human resources and production planning leads to overall production efficiency
- **◆** Optimization of Procurement
- ⇒Purchasing raw materials from GRITEK creates cost advantage.

Third Engine of Growth: DG Tec's Growth Strategy (3/3)

- ■In order to meet customers' demand, DG Technologies established their second manufacturing factory in Kurihara-city, Miyagi on May 30, 2021.
- ■Both Kamisu and Kurihara Factories manufacture Silicon and Quartz parts

Kamisu Factory

| Factory | DG Technologies Kamisu Factory | |
|----------|--------------------------------|--|
| Location | Kamisu-city, Ibaraki | |
| Area | 5,378m² | |

Kurihara Factory

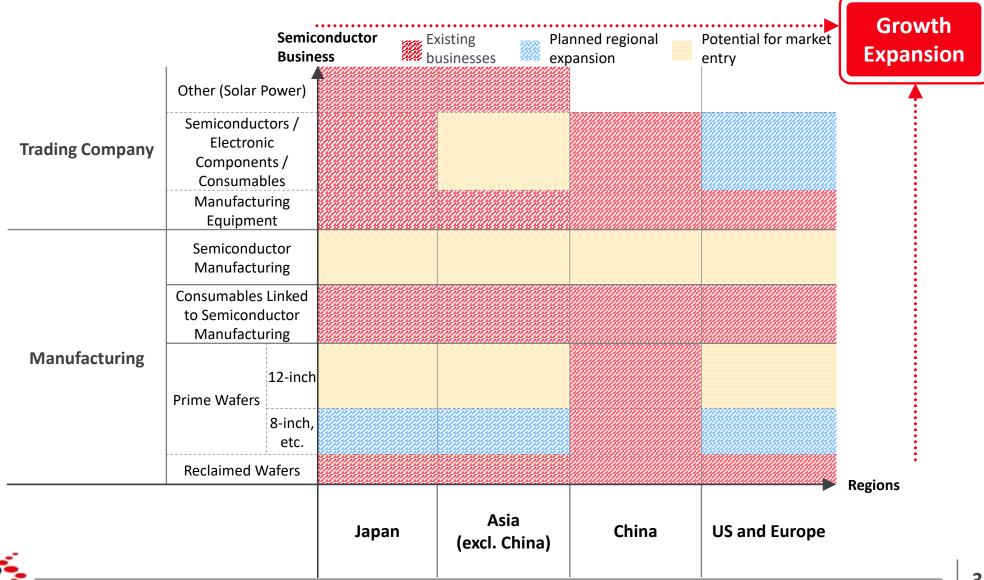

| Factory | DG Technologies Kurihara Factory | |
|----------|----------------------------------|--|
| Location | Kurihara-city, Miyagi | |
| Area | 5,000m ² | |

RS Technologies' Aims

Steady expansion of business domains and regions

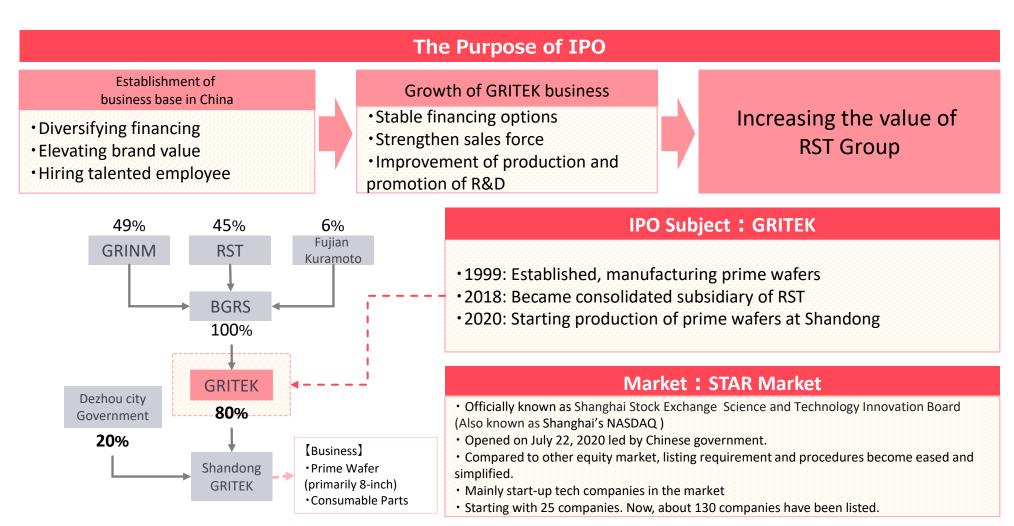

Appendix 1

Subsidiary in China, GRITEK, preparing for IPO on STAR Market: (Published Information)

Subsidiary in China, GRITEK, preparing for IPO (Published in Sept, 2020)

- In September, 2020, RST decided to prepare for GRITEK's IPO
- By conducting IPO, RST aims to elevate the value of GRITEK and expand their business

GRITEK's Status for IPO (Published in Nov. 2020)

■Board of Directors held on Nov. 19, 2020 approved share transfer of GRITEK's share as a part of IPO process.

Summary of Share Transfer

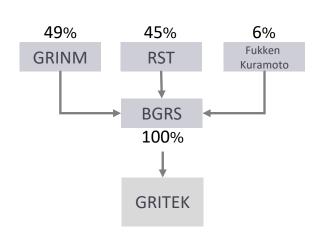

- Current Status: BGRS holding 100% of GRITEK's Share
- •Share Transfer Scheme: BGRS transferring GRITEK share to GRINM with 25.60%. Fukken Kuramoto with 3.14%. Employee stock ownership association with 5.00%. and RSTwith 23.51%

Purpose of Share Transfer

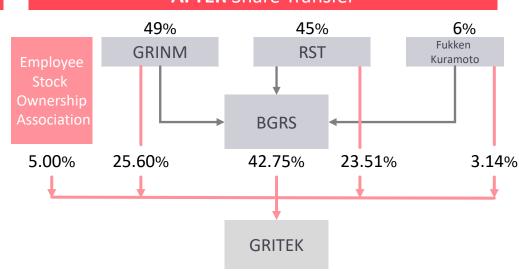

- Employee Stock Ownership Association stimulates GRITEK's employees' motivation
- Maintaining business relationship with GRINM

Increasing RST Group's enterprise value

BEFORE Share Transfer

AFTER Share Transfer

GRITEK' IPO Preparation Status (Published in May 2021)

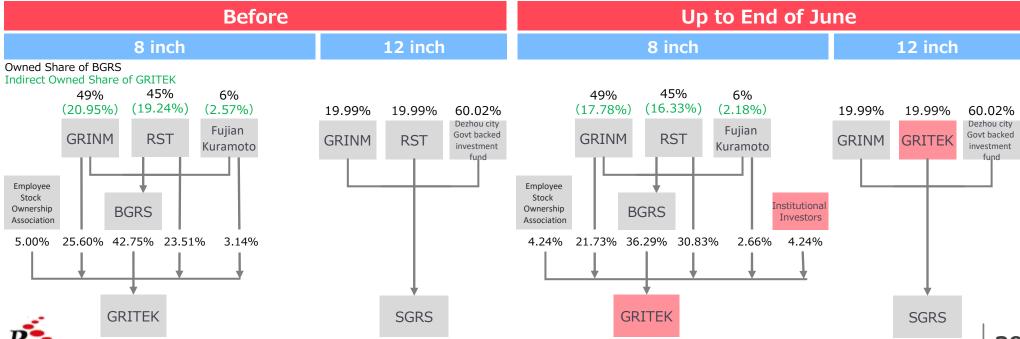

■Board of Directors determined third party allocation by GRITEK and share transfer of equity method affiliate (SGRS) to GRITEK (disclosed in May, 2021)

Summary

- Third party allocation to Institutional Investors and RS Technologies from GRITEK

Purpose

- Third Party Allocation to Institutional Investors To Kept variety of shareholders in STAR Market
- ○Third Party Allocation to RS Technologies
 To Strengthen the control of GRITEK by RS
- Share Transfer of SGRS to GRITEK To fit into the Chinese market as a strategy

Appendix2

Strengths of CEO Nagayoshi Ho

- President and CEO Nagayoshi Ho has knowledge gained from over 20 years in Japan, as well as strengths in worldwide sales, business networking, partnerships, and financing.
- President Ho has assembled a team of professionals from a broad range of fields including advanced technology and finance.

Nagayoshi Ho

Born 1970 in Fujian Province, China Completed Josai International University Graduate Program

Specialty fields:

M&A, business alliances (successful M&As with more than 10 companies)

1998 Established Eiki Shoji Co., Ltd.

2010 Established and appointed president of RTS (current position)

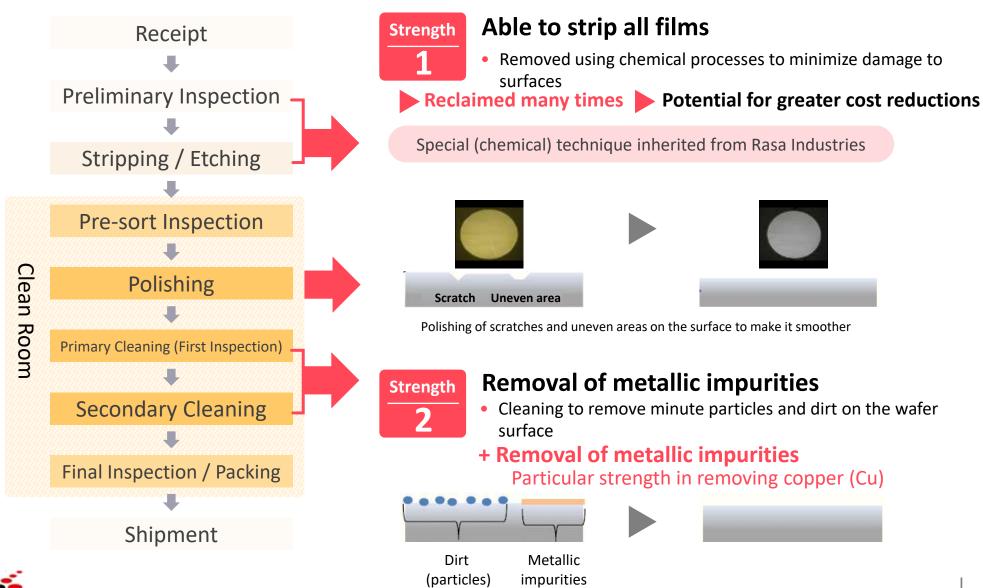

Favorite maxim: Where there is a will, there is a way

Supplementary information:

Nagayoshi Ho came to Japan after graduating high school. He has invested in more than 20 companies in Japan and abroad. In addition to semiconductors, he has experience investing in a range of businesses, including investment funds, trade, hotels, IT, and agriculture. He has traveled the world promoting his belief that Japanese manufacturing is the best in the world.

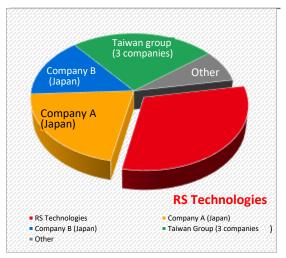

Reclaimed Wafer Business (1/2)

Reclaimed Wafer Business (2/2)

Increasing Share of the Reclaimed Market

RS Technologies' Share of the 12-inch Reclaimed Market

A new factory in Taiwan and expansion of the Sanbongi factory increased production capacity, increasing our market share to 33%.

We will further enhance production capacity at both factories by using empty factories at Sanbongi, and utilizing business partnerships, M&A, and other means.

Foray into Prime Wafer Business

■ RS Technologies has established a joint venture with Chinese state-owned company General Research Institute for Nonferrous Metals (currently, Grinm Advanced Materials, hereafter, GRINM) and is developing its semiconductor business as a domestic Chinese company.

About RST's Joint Venture Partner in China (GRINM)

- Established in 1952, GRINM is the largest state-owned research institute in the field of non-ferrous metals in China.
- Out of the roughly 45 million companies in China, about 460 thousand are state owned.
 Out of these, about 97 are directly owned by the central national government and GRINM is one of these.
- GRINM is a research institute through which government, industry and science come together. Nonferrous metal policies of the central national government are transmitted through GRINM.
- GRINM established operating companies that serve as evidence of its successful research.
 Currently, 4 Research institutes and 30 operating companies (including 2 listed companies) exist.
- GRITEK, a subsidiary of Beijing GRINM RS Semiconductor Materials Co., Ltd. (BGRS), an RST joint venture, was established as GRINM's first operating company in 2001.

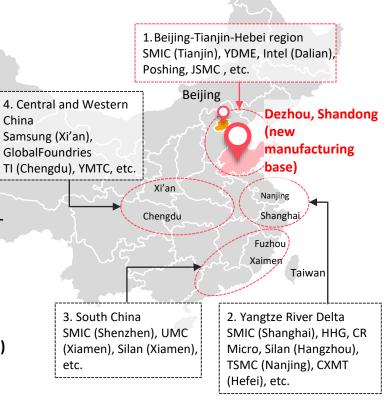

Alliance with the City of Dezhou in Shandong, China Subsidiary established for factory construction

Background of Partnership

- Worldwide invitations for major semiconductor manufacturers to set up factories in the area are gaining momentum. Several semiconductor manufacturers are located nearby, making the area a prime location (see image on the right)
- GRITEK will be able to offer plentiful benefits, including low-cost company housing and reduced utility expenses
- 3. Science and engineering universities are located nearby, providing favorable circumstances for acquiring superior human resources
- 4. Land expandable to a maximum of about 500,000m² (initially 200,000m²) has been procured, allowing for adequate response to future business progress in China

History and current status

- Established new company (Shandong GRINM Semiconductor Materials Co., Ltd.) for 8inch wafer business on August, 2018.
- A four-party joint venture agreement concluded with General Research Institute for Nonferrous Metals (GRINM), Dezhou Huida Semiconductor Equity Investment Fund Partnership, and the City of Dezhou in Shandong in Dec. 2019.
- 3. Established new joint venture (Shandong GRINM RS Semiconductor Materials Co., Ltd.) for 12-inch wafer business in March 2020
- 4. Dezhou City New factory Completion Ceremony held on October, 2020

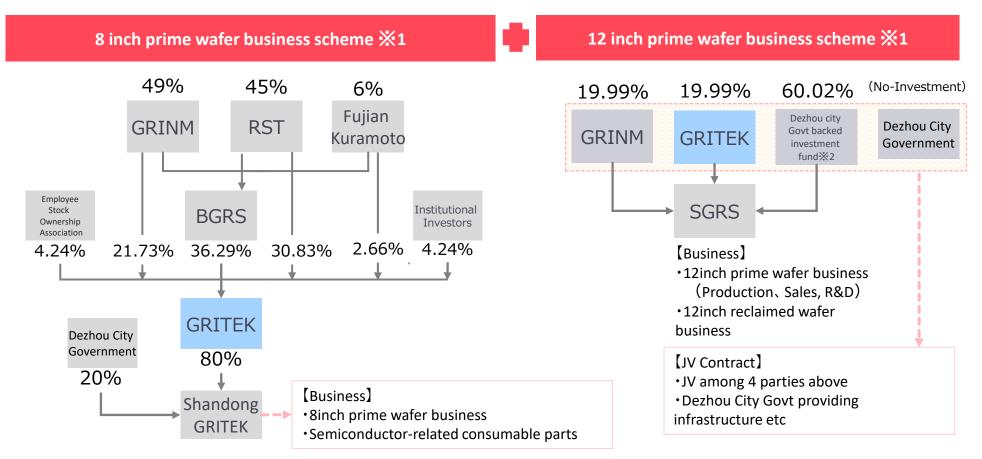

Business Scheme in Chinese market

(After execution of business scheme disclosed in May, 2021)

- As a part of IPO process, Board of Directors determined partial share transfer of GRITEK's shares owned by BGRS (disclosed in November, 2020), third party allocation by GRITEK and share transfer of equity method affiliate (SGRS) to GRITEK (disclosed in May, 2021)
- Below is the business scheme in details

¾1 The business scheme above is after execution of GRITEK's third party allocation and share transfer of equity method affiliate to GRITEK
¾2 Dezhou Huida Semiconductor Equity Investment Fund Partnership

12 inch silicon wafer business scheme in China (After execution of business scheme disclosed in May, 2021)

- In May, 2021、SGRS share owned by RS Technologies was transferred to GRITEK (stock swap) and approved by Board of Directors.
- By this share transfer above, SGRS became GRITEK's equity method affiliate
- Executing 12 inch prime wafer business through GRITEK is judged as the most appropriate approach to expand the business in China

Business Scheme after SGRS's share transfer 60.02% (no investment) 19.99% 19.99% Dezhou City Dezhou City GRINM GRITFK Government Government backed fund ×1 JV (SGRS) Subsidy, preferential infrastructure treatment

Key Points

- ♦ SGRS became GRITEK's equity method affiliate
- →Execution of integrated Silicon business in China
- →A part of business strategy to expand the business in China
- ◇Nagayoshi Ho continutes to become SGRS's director
- →Controlled through GRITEK
- ◇RS's rights and duties were transferred to GRITEK
- →RS's rights owned previously is capable of exercising through GRITEK

^{※2} GRINM RS Semiconductor Materials Co., Ltd

Year-by-Year Results

- In February, 2014, RSTEC Semiconductor Taiwan (RSTW) was established and Tainan factory began to produce 12 inch reclaimed wafer in December, 2015
- ■In June, 2015, No 8 factory (for 18 inch reclaimed wafer) in Sanbongi completed
- In January, 2018, GRITEK became a consolidated subsidiaries
- ■In October, 2020, Dezhou factory in Shandong began to manufacture prime wafer

Consolidated Net Sales and Operating Income

Forward-looking Statements

The content of these materials was prepared based on generally recognized economic potential and certain assumptions considered reasonable by the Company but is subject to revision without notice due to changes in various business environments affecting management.

Materials and information provided for this announcement contain forward-looking statements. This information is based on assumptions pertaining to the current outlook, forecasts and risks, and contains uncertainties that could result in different outcomes.

Even in the case of new information, future events, or other relevant matters, the Company is under no obligation to update or revise the forward-looking statements contained in this material.
