Groundbreaking ceremony of new factory construction for 300mm silicon wafer. (SGRS Dezhou Factory)

May 16, 2022

RST's equity-method affiliate, ShanDong GRINM RS Semiconductor Materials Co., Ltd. (abbreviated as SGRS) held a groundbreaking ceremony of new factory construction in Shandong Province, China.

The company is currently conducting R&D Business for mass production of 300mm prime wafer and 300mm Wafer Reclaim Business.

The new factory will be constructed as a new manufacturing base for the above two businesses. In the future, the company is aiming to produce 300,000 wafers per month for 300mm prime wafers and 100,000 wafers per month for the 300mm reclaimed wafers.
