The award ceremony of Certificate of appreciation from Hitachi Power Solutions Co., Ltd

2022.6.10

We received Certificate of appreciation from Hitachi Power Solutions Co., Ltd for the procurement and provision of semiconductor components used in the manufacture of ultrasonic imaging equipment, which is a product of Hitachi Power Solutions Co., Ltd.

We are a distributor of Hitachi Power Solutions Co., Ltd. and sell to semiconductor manufacturers around the world. Currently, there is a very high demand for ultrasonic imaging equipment, but due to the recent shortage of semiconductors, it has been difficult to procure the semiconductor materials required for manufacturing. Therefore, we used our network to support the procurement of semiconductor materials.

The award ceremony was held on June 9, 2022 (Thursday), and we received Certificate of appreciation from Mr. Terakado, Executive Officer, General Manager of Product Solutions Division, Hitachi Power Solutions Co., Ltd.

* The reason why the date of Certificate of appreciation is March 2022 is that the award ceremony was postponed due to Corona infection.
